

# PROTECT YOURSELF AND YOUR WALLET WITH OSHA TRAINING

Did you know that falls on the jobsite are the leading cause of fatalities in the construction industry today? Without adequate safety training, you could be at risk.

The NAHB Research Center and NAHB have developed a new OSHA-funded Scaffold and Ladder Safety Training seminar for construction workers. This 2 ½ -hour seminar will provide high caliber instruction on fall prevention techniques and OSHA fall protection requirements.

Falling or getting hurt on the job can cost you and your family precious time and serious money. Don't risk it. Register today and learn what you can do to minimize hazards and make your jobsites safer.

To register, please contact:
